

Community Services Department

The Town of Buckeye Community Services Department will be hosting the following programs and activities for the months of **March, April and May**.

The Mission of the Community Services Department is to preserve, protect and provide the programs, facilities and parks that enhance the quality of life in Buckeye.

Letter From The Director Jeanine Guy:

Spring is fast approaching, bringing thoughts of renewal and growth. It is a time to enjoy the outdoors and to try a new activity or adventure.

Recently, my husband and I took his new kayak down the Gila River. We went from the Tuthill crossing to MC 85. I was once again amazed at this beautiful, natural resource, right in our back yard. The wetlands along the river bank showcase many unique species of plants and birds. This section of the river is part of the El Rio Vision - a 17-mile watercourse master plan along the Gila River that stretches from the confluence of the Agua Fria River to MC85. Partners for the project include Buckeye, Avondale and Goodyear. The project began as a restoration effort to return the Gila River to its natural state while primarily accomplishing the goal of improved flood control. Currently, the river is choked with salt cedar trees and has become the dumping place for trash, abandoned automobiles and appliances. With the efforts of the District and the partnering cities, the river could not only become beautiful and safe again, but become a recreational corridor that brings high-end economic development to West Valley communities. The proposed Buckeye Town Lake is identified in the El Rio Vision. The Lake and surrounding area gives Buckeye the opportunity to preserve a natural resource and develop a wonderful recreation area.

It is the mission of our Department to preserve, protect and provide the programs, facilities and parks that enhance the quality of life in Buckeye. As you browse through this brochure, I invite you to visit our library, parks, and (soon to open) recreation center and participate in the variety of programs offered.
